## DETAILED ACTION

### *Election/Restrictions*

This application contains claims directed to more than one species of the generic invention. These species are deemed to lack unity of invention because they are not so linked as to form a single general inventive concept under PCT Rule 13.1.

The species are as follows: one block chosen from polyurethane and polyurea blocks, and one film-forming polymer.

Applicant is required, in reply to this action, to *elect a single species* to which the claims shall be restricted if no generic claim is finally held to be allowable. The reply must also identify the claims readable on the elected species, including any claims subsequently added. An argument that a claim is allowable or that all claims are generic is considered non-responsive unless accompanied by an election.

**Note:** *The Examiner respectfully requests that Applicant define all variables of the elected species.*

Upon the allowance of a generic claim, applicant will be entitled to consideration of claims to additional species which are written in dependent form or otherwise include all the limitations of an allowed generic claim as provided by 37 CFR 1.141. If claims are added after the election, applicant must indicate which are readable upon the elected species. MPEP § 809.02(a).

Claims 27-69 are deemed to correspond to the species listed above.

The species listed above do not relate to a single general inventive concept under PCT Rule 13.1 because, under PCT Rule 13.2, the species lack the same or corresponding special

technical features because the polycondensates may contain different values assigned to variable of compound (1), compound (2), compound (3) and variables X', B, R, and P of formulas I' and II'; hence, different chemical properties and a burdensome search because one would have to search several different classes and subclasses.

A telephone call was made to Matthew Wipple on May 15, 2001 to request an oral election to the above restriction requirement, but did not result in an election being made.

*Conclusion*

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Lauren Q Wells whose telephone number is (703) 305-1878. The examiner can normally be reached on M-F (7-4:30).
